

NAZMUS SAKIB

Cyber Security Analyst | SOC Operations | Threat Intelligence

nazmus.sakib.cse.iu@gmail.com | +880 1872 931757 | Dhaka, Bangladesh

LinkedIn | GitHub | Medium | TryHackMe | Portfolio

CAREER OBJECTIVES

Cybersecurity Enthusiast with hands-on experience in security operations, vulnerability assessment, SOC implementation, and penetration testing. National CTF finalist proficient in SIEM platforms, intrusion detection, and network analysis tools. Former General Secretary of University Cyber Security Club with leadership in security awareness and collaboration. Skilled in Python automation, Linux administration, and security tooling across monitoring, threat detection, and testing workflows. Committed to leveraging technical expertise and analytical skills to protect organizations against evolving cyber threats.

SKILLS

Security Operations & Incident Response: SIEM (Splunk, Wazuh, ELK Stack), Intrusion Detection/Prevention (IDS/IPS), Security Information Management, Log Analysis & Correlation, Incident Response, Security Monitoring

Penetration Testing & Security Tools: OWASP Top 10, Burp Suite, Nmap, Nessus, Wireshark, Web Security Testing, Reverse Engineering, Network Penetration Testing, Vulnerability Assessment

Threat Intelligence & Analysis: Open-Source Intelligence (OSINT), Attack Pattern Recognition, Adversary Tactics Analysis (MITRE ATT&CK), Cryptography (RSA, AES, Hash Functions)

Networking & Systems Administration: TCP/IP Protocol Suite, Routing and Switching, DNS, HTTP/HTTPS, VPN, Linux System Administration, Active Directory Basics, Cisco CCNA Fundamentals

Programming & Development: Python (Security Automation), Bash Scripting, SPL, C/C++, Assembly, JavaScript, SQL

NOTABLE PROJECTS

Design and Implementation of an Industrial Grade Security Operations Center (SOC) using Integrated Open-Source SIEM | Tools: Wazuh, Elasticsearch, Logstash, Kibana (ELK Stack) 2026

- Deployed fully functional SOC simulation using Wazuh SIEM, ELK Stack (Elasticsearch, Logstash, Kibana) for real-time log ingestion, intrusion detection, and alert correlation across multi-node virtualized network.
- Configured custom detection rules and Kibana dashboards for threat visualization, incident triage, and simulated end-to-end blue team workflows including alert escalation and forensics.

Centralized Splunk SIEM Home Lab using Splunk Enterprise for Real-Time Multi-Platform Log Aggregation and Threat Detection | Tools: Splunk Enterprise, Kali Linux, Windows, SPL, PowerShell 2026

- Deployed two-node SIEM with Splunk Enterprise indexer and Universal Forwarder, ingesting Windows Event Logs, performance counters, Linux syslog, and authentication logs over TCP port 9997.
- Implemented File Integrity Monitoring on critical directories (/etc, /bin, /usr/bin) and built SOC dashboard with panels for security events, failed logins, system KPIs, and threat correlation using SPL.

CSE Assist: An AI-powered Chatbot for Departmental Queries and Resources | Tools: Python, NLP, Chatbase 2025

- Developed NLP-powered chatbot enabling students to search syllabus, course modules, faculty information, and academic notices through conversational interface integrated with planned expansion to handle university-wide queries beyond departmental scope

Python Email Automation Security Systems | Tools: Python, smtplib, SSL/TLS, Gmail API, Base64, cryptography 2025

- Built an automated Python email scheduler delivering messages to multiple recipients with Base64-encoded attachments for secure payload delivery in penetration testing scenarios.

Online Library Management System | Tools: JavaScript, HTML, CSS, SQL 2024

- Developed web-based library management application with user authentication, CRUD operations for book catalog and member database, and input validation for security against common web vulnerabilities.

Android-Controlled IoT Robot Car | Tools: Arduino, Embedded C, Bluetooth Protocol 2022

- Engineered Arduino-based autonomous vehicle with motor control, sensor integration (ultrasonic, infrared), Bluetooth communication protocol, and analysis of wireless security vulnerabilities in IoT systems.

EDUCATION

Bachelor of Science in Computer Science and Engineering Islamic University, Kushtia, Bangladesh CGPA 3.54 / 4.00	2020 – 2026
Higher Secondary Certificate (HSC) Alamdanga Govt. College, Chuadanga, Bangladesh Science GPA: 5.00 / 5.00	2017 – 2019
Secondary School Certificate (SSC) Alamdanga Govt. High School, Chuadanga, Bangladesh Science GPA: 5.00 / 5.00	2015 – 2017

CERTIFICATIONS & TRAINING

SOC Analyst Essentials — Udemy
Introduction to Cyber Security Learning Path — TryHackMe
Open-Source Intelligence (OSINT) Fundamentals — TCM Security Academy
Reverse Engineering — Cyber Bangla Academy
Cisco CCNA 200-301 Complete Course — Udemy
Ethical Hacking Masterclass — Udemy
Cyber Security and Ethical Hacking Introduction Course — Udemy
Database Administration (MySQL / Oracle / SQL Server) — Bangladesh Computer Council

AWARDS & ACHIEVEMENTS

22nd Place — Cyber Raid, 2025 (National CTF Competition, 150+ teams)
23rd Place — Flag Hunt, 2023 (National CTF Competition, 100+ teams)
31st Place — MIST Leetcon, 2023 (National CTF Competition, 120+ teams)
Top 5% Global Ranking — TryHackMe Platform (among 3 million+ active users)

PROFESSIONAL EXPERIENCE

Lecturer in ICT | Merit Academy | Kushtia, Bangladesh | On-site (part-time) 2022 – 2023

- Delivered ICT fundamentals and cybersecurity awareness training to 100+ high school students covering safe internet practices, password security, and phishing prevention
- Conducted interactive sessions on networking fundamentals and digital safety practices, building foundational security awareness that improved students' ability to identify and respond to common cyber threats

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

General Secretary, Islamic University Cyber Security Club, Islamic University, Kushtia, Bangladesh 2024 – 2025

- Organized hands-on cybersecurity workshops, CTF training sessions, and awareness events for 100+ student members.

Vice President, IU Students' Association of Chuadanga, Islamic University, Kushtia, Bangladesh 2024 – 2025

- Hosted regional student events and provided comprehensive academic support and guidance to many students.

Executive Member, BASIS Students' Forum IU Chapter, Islamic University, Kushtia, Bangladesh 2024 – 2025

- Co-organized career guidance sessions, technology events, and successful industry-academia networking programs.

LANGUAGE PROFICIENCY

Bangla — Native
English — Professional
